HEALTHY FAMILIES NEW YORK/HOME VISITING PROGRAM PERFORMANCE TARGETS

Health and Development Targets

Text for Report	Cases meeting target	Cases not meeting target	Invalid cases
<p>HD1. Immunizations at one year At least 90% of target children will be up to date on immunizations as of first birthday.</p> <p>Cohort: Target children 1 to 1.5 years of age</p>	<p>To meet the target, the target child(ren) must have shots recorded in each of the following immunization groups on the Target Child Medical form by first birthday (NYS Health Department Recommended Childhood Vaccination Schedule):</p> <ul style="list-style-type: none"> • 3 DTP shots • 2 Polio shots 	<p>Have a tc_med and Less than required shots before or on first birthday</p>	<p>Tc_med is missing for cases in cohort</p>
<p>HD2. Immunizations at two years At least 90% of target children will be up to date on immunizations as of second birthday.</p> <p>Cohort: Target children 2 years to 2.5 years of age</p>	<p>To meet the target, the target child(ren) must have shots recorded in each of the following immunization groups on the Target Child Medical form by the second birthday (NYS Health Department Recommended Childhood Vaccination Schedule):</p> <ul style="list-style-type: none"> • 4 DTP shots • 3 Polio shots • 1 MMR shot 	<p>Have a tc_med and Less than required shots before or on second birthday</p>	<p>Tc_med is missing for cases in cohort</p>
<p>HD3. Lead Assessment At least 90% of target children will be assessed for the risk of lead in their environment according to the NYS Health Department's suggested schedule.</p> <p>Cohort: Target children 9 months and older</p>	<p>To meet the target, each target child must have lead assessment date recorded on the Target Child Medical form according to the following suggested schedule of the NYS Health Department and the age of the child:</p> <ul style="list-style-type: none"> • Dated within 30 days (before or after) of due date 	<p>Do not have the appropriate lead assessment on the tc_med or assessment date is out of the window for the age of the tc</p>	<p>Tc_med is missing</p>

<p>HD4. Medical Provider for target children At least 95% of target children will have a medical provider.</p> <p>Cohort: All Target children 30 days or older</p>	<p>To meet the target, the following needs to be true:</p> <ul style="list-style-type: none"> For target children less than 6 months old as of the end date of the quarterly report, #15. Medical Provider on Target Child Identification and Birth outcomes must be checked 'Yes', or if 6 months or older, the age appropriate follow up form #39. Medical Provider must be checked 'Yes' 	<p>Appropriate form is there and valid and item is marked 'no' or is blank</p>	<p>Intake or appropriate follow-up is missing or out of window</p>
<p>HD5. Target Child Well Baby Medical Provider Visits by 15 months At least 90% of Target children will have at least 5 well baby visits by 15 months of age.</p> <p>Cohort: Target children 15 months to 21 months of age</p>	<p>To meet the target, the target child(ren) must have 5 visits dated and recorded on the Target Child Medical form by the 15 month birthday (NYS Health Department Recommended Schedule) Need to look at all visit slots</p>	<p>Case has a tc_med and there are less than 5 visits dated on or before the 15 month birthday</p>	<p>Tc_med is missing</p>
<p>HD6. Target Child Well Baby Medical Provider Visits by 27 months At least 90% of Target children will have 2 well baby visits between 15 and 27 months of age.</p> <p>Cohort: Target children 27 months to 33 months of age</p>	<p>To meet the target, the target child(ren) must have 2 visits recorded on the Target Child Medical form between 15 and 27 month of age (NYS Health Department Recommended Schedule)</p>	<p>Case has a tc_med and there are less than 2 visits dated after the 15 month birthday up to the 27 month birthday</p>	<p>Tc_med is missing</p>
<p>HD7. Age Appropriate Developmental level At least 98% of target children will demonstrate age appropriate developmental milestones on the Ages and Stages Questionnaire or be referred for further evaluations/services if delays are detected.</p> <p>Cohort: Target children 4 months and older</p>	<p>To meet the target,</p> <ul style="list-style-type: none"> the age appropriate ASQ record must have all scores equal to or above cut off score or, with at least one below cutoff score and 12. "Was target child referred to EIP?" marked yes, or if the age appropriate ASQ is missing, then the last recorded ASQ must have 13. "Has target child started receiving developmental services?" marked yes. If 6-8 months, look for 6m, but if missing, look for 4m, (check out of window, too) and if 18-20, look for 18, but if missing, look for 16m (checkout of window too) 	<p>Below cutoff score on one measure and the #12 item is blank or no</p>	<p>Missing or out of window asq</p>

<p>HD8. Medical Provider for Primary Care Taker 1 90% of Primary Care Takers will have a medical provider.</p> <p>Cohort: All Primary caretakers enrolled over 30 days from the end date of the report</p>	<p>To meet the target, the following needs to be true:</p> <ul style="list-style-type: none"> • For target children less than 6 months old as of the end date of the quarterly report, look at intake, #19 or • if 6 months or older, the age appropriate follow up form 39. PC1 Medical Provider must be checked 'Yes' <p>If the appropriate follow-up is valid and the pc1 is not Living in the Household, the case will not be counted in the cohort.</p>	<p>Have appropriate intake or follow-up and item is marked 'No' or is blank</p>	<p>Missing appropriate form or out of window</p>

Parent Child Interaction Targets

Text for Report	Cases meeting target	Cases not meeting target	Invalid cases
<p>PCI1. Primary Care Taker 1 breast feeding 30% of PC1s will breast feed their target children for at least 3 months from the birth of the child Cohort: Families with target children 6 to 15 months</p>	<p>Look in all follow-up forms for question 38. to be greater than 2 and case meets target</p>	<p>#38 is blank or less than 3</p>	<p>No follow-up forms</p>
<p>PCI2. Valid PSI assessments Programs will complete 75% valid intake/birth PSI assessments Cohort: All families with an Intake/Birth PSI due in the Time Period</p>	<p>For cohort, find a valid, in-the-window intake/birth PSI assessment Time period is defined as the first two months of the quarter and the last month of the previous quarter.</p>	<p>Cases not meeting target are the same as invalid cases</p>	<p>Case is invalid if missing, out of the window or invalid because of too many blank items</p>
<p>PCI3. Reducing Parental Stress in highly stressed families by the target child's six month birthday. 60% of Primary Caretaker 1's with a total score above the 85th percentile on the initial Parental Stress Index (PSI) will score below the 85th percentile for total score on the six month follow-up PSI. Cohort: PC1s with a total score above the 85th percentile on the initial Parental Stress Index and a Target Child six months up to one year old.</p>	<p>Target will be met if the total score on the six month PSI is <86.</p>	<p>Target not met if the total score on the six month PSI is >85.</p>	<p>6 month PSI is out of window, missing or invalid due to blank items</p>
<p>PCI4. Reducing Parental Stress in highly stressed families by the target child's first birthday. 80% of Primary Caretaker 1's with a total score above the 85th percentile on initial Parental Stress Index (PSI) will score below the 85th percentile for total score on the one year follow-up PSI.</p>	<p>Target will be met if the total score on the one year PSI is <86.</p>	<p>Target not met if the total score on the one year PSI is >85.</p>	<p>One year PSI is out of window, missing or invalid due to blank items</p>

<p>Cohort: PC1s with a total score above the 85th percentile on the initial Parental Stress Index and a Target Child one to 1.5 year old.</p>			
<p>PCI5. Reducing Parental-Child Dysfunctional Interaction Stress (PCDI) in highly stressed families by the target child’s six month birthday. 65% of Primary Caretaker 1’s with a PCDI score above the 85th percentile on the initial Parental Stress Index (PSI) will score below the 85th percentile on the PCDI score on the six month follow-up PSI. Cohort: Cohort: Cohort: PC1s with a PCDI score above the 85th percentile on the initial Parental Stress Index and a Target Child six months up to one year .</p>	<p>Target will be met if the PCDI score on the six month PSI is <26.</p>	<p>Target not met if the PCDI score on the six month PSI is >25.</p>	<p>6 month PSI is out of window, missing or invalid due to blank items</p>
<p>PCI6. Reducing Parental-Child Dysfunctional Interaction Stress (PCDI) in highly stressed families by the target child’s first birthday. 80% of Primary Caretaker 1’s with a PCDI score above the 85th percentile on the initial Parental Stress Index (PSI) will score below the 85th percentile on the PCDI score on the one year follow-up PSI. Cohort: Cohort: PC1s with a PCDI score above the 85th percentile on the initial Parental Stress Index and a Target Child one to 1.5 year old.</p>	<p>Target will be met if the PCDI score on the one year PSI is <26.</p>	<p>Target not met if the PCDI score on the one year PSI is >25.</p>	<p>One year PSI is out of window, missing or invalid due to blank items</p>

Maternal Life Course Targets

Text for Report	Cases meeting target	Cases not meeting target	Invalid cases
<p>MLC1. Employment, Education and Training at target child's first Birthday 50% of families will be enrolled in an education program, job training or job placement program or will obtain employment by the target child's first birthday.</p> <p>Cohort: Families with target children 12 to 18 months</p>	<p>On the one year follow-up, if #8 Did participant hold a job... for pc1 or pc2 is 'Yes'</p> <p>or</p> <p>#11. Has participant been involved in an educational or employment and training...for pc1 or pc2 is 'Yes'</p> <p>If the appropriate follow-up is valid and both the pc1 and pc2 are not Living in the Household, the case will not be counted in the cohort.</p>	<p>On the one year follow-up, if #8 Did participant hold a job... for both pc1 and pc2 is 'No' or blank</p> <p>and</p> <p>#11. Has participant been involved in an educational or employment and training...for both pc1 and pc2 is 'No' or blank</p>	<p>The one year follow-up is missing or out of the window</p>
<p>MLC2. Employment, Education and Training at target child's second birthday 75% of families will be enrolled in an education program, job training or job placement program or will be employed by the target child's second birthday.</p> <p>Cohort: Families with target children 24 to 30 months old</p>	<p>On the two year follow-up, if #8 Did participant hold a job... for pc1 or pc2 is 'Yes'</p> <p>or</p> <p>#11. Has participant been involved in an educational or employment and training...for pc1 or pc2 is 'Yes'</p> <p>If the appropriate follow-up is valid and both the pc1 and pc2 are not Living in the Household, the case will not be counted in the cohort.</p>	<p>On the two year follow-up, if #8 Did participant hold a job... for both pc1 and pc2 is 'No' or blank</p> <p>and</p> <p>#11. Has participant been involved in an educational or employment and training...for both pc1 and pc2 is 'No' or blank</p>	<p>The two year follow-up is missing or out of the window</p>
<p>MLC3. TANF on first birthday At least 35% of families who were on TANF at intake will no longer be on TANF on the target child's first birthday.</p> <p>Cohort: Families who were receiving TANF at intake with target child 1 to 2 years old</p>	<p>The target is met if families who receive TANF/AFDC at intake have a response on the 1 year follow-up with, #30. Is family receiving...benefits..." marked "2. No.", or #31. "TANF" is marked with either 2. Received since last follow-up, but not currently receiving, or 3. No receipt since last follow-up.</p>	<p>The target is not met if families who receive TANF/AFDC at intake have a response on the 1 year follow-up with, #30. Is family receiving...benefits..." marked "2. yes.", and #31. "TANF" is marked with 1. Currently receiving or #31 is blank</p>	<p>Intake is missing or one year follow-up is missing or out of the window</p>
<p>MLC4. TANF on second birthday At least 50% of families who were on TANF at intake will no longer be on TANF on the target child's second birthday.</p> <p>Cohort: Families who were</p>	<p>The target is met if families who receive TANF/AFDC at intake have a response on the 2 year follow-up with, #30. Is family receiving...benefits..." marked "2. No.", or #31. "TANF" is marked with either</p>	<p>The target is not met if families who receive TANF/AFDC at intake have a response on the 2 year follow-up with, #30. Is family receiving...benefits..." marked "2. yes.", and</p>	<p>Intake is missing or two year follow-up is missing or out of the window</p>

receiving TANF at intake with target child 2 to 3 years old	2. Received since last follow-up, but not currently receiving, or 3. No receipt since last follow-up.	#31. "TANF" is marked with 1. Currently receiving or #31 is blank	
<p>MLC5. Education of Participants under 21 at Target Child's 6 months birthday</p> <p>At least 85% of PC1's under 21 at intake and without a high school degree or GED will be enrolled in a degree bearing program or receive a high school degree or GED certificate by the Target Child's 6 month birthday.</p> <p>Cohort: Target Children 6 to 12 months old and PC1 under 21 years old at Intake without a High School Degree or GED</p>	<p>Target is met if on the 6 month follow-up, for PC1, #10 Highest grade... is greater than 2,</p> <p>Or</p> <p>For pc1, #11. Has participant been involved in an educational... is marked 'Yes' AND the program type for the program is 1, 2, 3, or 6</p> <p>If the appropriate follow-up is valid and the pc1 is not Living in the Household, the case will not be counted in the cohort.</p>	<p>Target is not meet if on the 6 month follow-up, for PC1, #10 Highest Grade is < 3 ,</p> <p>And</p> <p>For pc1, #11. Has participant been involved in an educational... is marked 'No'</p>	Intake is missing or 6 month Follow-up is missing or out of the window
<p>MLC6. Education of Participants under 21 at intake at Target Child's first birthday</p> <p>At least 90% of PC1's under 21 at intake and without a high school degree or GED will be enrolled in a degree bearing program or receive a high school degree or GED certificate by the Target Child's first birthday.</p> <p>Cohort: Target Children 12 to 18 months old and PC1 under 21 years old at Intake without a High School Degree or GED</p>	<p>Target is met if on the 1 year follow-up, for PC1, #10 Highest grade... is greater than 2,</p> <p>Or</p> <p>For pc1, #11. Has participant been involved in an educational... is marked 'Yes' AND the program type for the program is 1, 2, 3, or 6</p> <p>If the appropriate follow-up is valid and the pc1 is not Living in the Household, the case will not be counted in the cohort.</p>	<p>Target is not meet if on the 1 year follow-up, for PC1, #10 Highest Grade is < 3 ,</p> <p>And</p> <p>For pc1, #11. Has participant been involved in an educational... is marked 'No'</p>	Intake is missing or 1 year Follow-up is missing or out of the window
<p>MLC7. Referrals for Needed Services</p> <p>If DV, Substance Abuse, or Mental Health is identified as a current issue on the Kempe Assessment of an enrolled participant, a referral will be made for the Primary Caretaker 1 within 6 months of enrollment 75% of the time.</p> <p>Cohort: Participants enrolled from 6 months to one year</p>	<p>If issue on Kempe is 41g (DV), then service code 47 must be found in serv_ref table dated before intake date+6 months, and</p> <p>If issue on Kempe is 41a or 41b (SA), then service code 48 must be found in serv_ref table dated before intake date+6 months, and</p> <p>If issue on Kempe is 41d or 41e (MH), then service code 45 or 46 must be found in serv_ref table dated (ref_date) before intake date+6 months</p>	<p>If any of the DV, SA or MH issues identified on the Kempe do not have the corresponding referral, target is not met</p>	Nothing is invalid
